WORK EXPERIENCE

BISHOP HEBER COLLEGE, TIRUCHIRAPPALLI | WEB DEVELOPER

Dec 2025 – Present

- Contributed to a MERN stack admissions portal processing **10,000+** applications per cycle.
- Led frontend development for multi-step application workflows with robust validation logic.
- Built admin dashboards for application tracking, analytics, and data management.
- Implemented scalable frontend architecture using React and Redux Toolkit.
- Integrated CCAvenue payment gateway with transaction status tracking for secure payment processing.

VDART | FULL STACK DEVELOPER INTERN

July 2025 – Oct 2025

- Developed an internal web application for project tracking and KPI visualisation using React, Vite, Tailwind CSS, PHP, and MySQL.
- Built responsive user interfaces and integrated dashboards and analytics modules for business insights.
- Implemented backend functionality with full CRUD operations.

PROJECTS

COLLEGE ADMISSIONS PORTAL

- Designed the complete frontend architecture including reusable component structure, routing, and Redux state management across the portal.
- Implemented document upload with AWS S3 presigned URLs, PDF receipt generation, and a candidate dashboard with application progress tracking.
- Built a visitor analytics dashboard using Recharts and Leaflet maps for location-based visualisation.

ALUMNI WEBSITE ADMIN DASHBOARD (CMS)

- Developed a content management system enabling non-technical users to update website content and monitor analytics using React, PHP, and MySQL (Apache deployment).
- Integrated CCAvenue payment gateway and built transaction tracking workflows.
